

**UNIVERSITY OF CONNECTICUT****STEM CELL FALL SEMINAR SERIES IN FY 09-10****Wednesdays, 10:30 am to 11:30 am**

UCHC Henry B.C. Low, Learning Center - CG-076

**Videoconference to Advanced Technology Laboratory (ATL) Room #109, Storrs, and Wesleyan University**

<b>Date</b>	<b>Speaker</b>	<b>Home Institution</b>	<b>Title of Presentation</b>	<b>Host</b>
09/09/09	Yibing Qyang	Yale University	Towards Human Heart Repair Using Isl1+ Cardiovascular Progenitors	Ren-He Xu
09/16/09	Chris Simollardes	Fluidigm Corporation	Introduction of Fluidigm miniarray	Ren-He Xu
10/14/09	Ting Xie	Stowers Institute	Stem Cells: Niche, Competition, Aging and Application	Ren-He Xu
11/11/09	Dan Kaufman	University of Minnesota, Stem Cell Institute	Novel Blood and anti-Cancer Therapies from Human Pluripotent Stem Cells	Ren-He Xu
12/09/09	Gary Stein	UMASS Stem Cell Institute	Transcription factor mediated epigenetic regulation of cell growth and phenotype for biological control and cancer	Ren-He Xu
01/13/10	Kwang-Soo Kim	Harvard Medical School	Trends of the iPSC technology for biomedical research and cell therapy	Ren-He Xu
02/10/10	Songtao Shi	University of Southern California	Mesenchymal stem cells: diseases and cure	Ren-He Xu
03/10/10	Yhan Chai	University of Southern California	TGF-beta signaling and tooth development	Bayarsaihan Dashzeveg
04/14/10	Cheng Ming Chuong	University of Southern California	Regulation of ectodermal organ stem cell regeneration	Ren-He Xu
